Product Specifications

Applications:Western BlotELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Product:	Goat IgG-Ultra Pure
Concentration:> 4.5 mg/ml (E 1% at 280 nm = 13.0)Amount:1.0 mgConjugate:UnconjugatedForm:Clear, colorless liquid, 0.2 µm filteredPurification:Protein APurity:> 95% based on SDS-PAGEHost:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 °CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of the care of an end to use our products in violation of any patent of the care of an end to use our products in violation of any patent of the care of a registered veter in violation of any patent of the care of a registered veter in the care of a patient of the care of a patient of the care of a registered veter in the care of a registered veter	Description:	Goat IgG (H&L) Purified- Ultra Pure Protein A/SEC (Immunogen Grade)
Amount:1.0 mgConjugate:UnconjugatedForm:Clear, colorless liquid, 0.2 μm filteredPurification:Protein APurity:> 95% based on SDS-PAGEHost:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 °CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent or the care of a registered veter in violation of any patent or the care of a registered veter in violation of any patent or the care of a registered veter in violation of any patent or the care of a registered veter in violation of any patent or the care of a registered veter in violation of any patent or the violation of any patent or the care of a registered veter in violation of any patent or the violation of any patent or violation or violation or violation of any patent or v	Part Number:	Gt-003-N
Conjugate:UnconjugatedForm:Clear, colorless liquid, 0.2 µm filteredPurification:Protein APurity:> 95% based on SDS-PAGEHost:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 °CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent or	Concentration:	> 4.5 mg/ml (E 1% at 280 nm = 13.0)
Form:Clear, colorless liquid, 0.2 μm filteredPurification:Protein APurity:> 95% based on SDS-PAGEHost:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 °CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent or	Amount:	1.0 mg
Purification:Protein APurity:> 95% based on SDS-PAGEHost:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 ° CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent or	Conjugate:	Unconjugated
Purity:> 95% based on SDS-PAGEHost:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 ° CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Form:	Clear, colorless liquid, 0.2 μm filtered
Host:GoatBuffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 °CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Purification:	Protein A
Buffer:10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2Preservative:0.05% (w/v) Sodium AzideStorage:2-8 ° CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Purity:	> 95% based on SDS-PAGE
Preservative:0.05% (w/v) Sodium AzideStorage:2-8 ° CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Host:	Goat
Storage:2-8 °CCountry of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Buffer:	10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Country of Origin:Normal Goat Serum was obtained from healthy animals of US origin and under the care of a registered veterinarian.Applications:Western Blot ELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. No for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Preservative:	0.05% (w/v) Sodium Azide
Applications:Western BlotELISADisclaimer:For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of	Storage:	2-8 °C
Applications: Western Blot ELISA ELISA Disclaimer: For <i>in vitro</i> Laboratory Use Only. Not for diagnostic or therapeutic use. Not for human or animal consumption. Suggested applications of our product are not recommendations to use our products in violation of any patent of the sector of the sector.	Country of Origin:	Normal Goat Serum was obtained from healthy animals of US origin and
